Services Provided:

- ❖ Blood Sugar check
- ❖ Blood pressure check
- ❖ Heart and Lung Exam
- ❖ Feet and Gait Monitoring
- ❖ Pharmacy Counseling
- ❖ Dental Hygiene checkup
- ❖ Health recommendations

About Us

Al Shifaa is a Muslim student run organization. Our goal is to provide the Philadelphia community, especially the underserved and underrepresented, unique healthcare services and screenings by outstanding healthcare providers. We work with doctors, dentists, pharmacists, and podiatrists as well as students in each of these fields to ensure that our patients receive holistic healthcare education. Our goal with the Al-Shifaa Health Screening and Counseling is to hold bimonthly clinics in the various Philadelphia district and provide our services for free.

Importance of Screening

Many people will only go to a doctor if they look or feel sick. Unfortunately, the reality is that many diseases such as high blood pressure or high cholesterol are known as silent killers— meaning that even if you look and feel perfectly well, you could have a condition that you do not know about. Fortunately, screening can be easy and quick, along with treatment and good control of the condition can result in very positive outcomes with minimal risk of serious complications down the road. Therefore, it is important to get screened as early as possible, even if you feel perfectly healthy
